## Professional Summary

Full-stack web developer experienced with modern frameworks like NextJS, Vue, and backend technologies including PHP, Laravel, CodeIgniter, Node.js. Skilled in building fast web applications with server-side rendering and API integrations. Focused on clean code and solving real-world problems.

## Experience

### Kiraz E-Commerce (2024-2025)

Laravel Developer – Developed and maintained a feature-rich e-commerce platform using the Laravel framework. Built modules for user registration, product management, shopping cart, and order processing.

### AvtoHesab (2023-2024)

CodeIgniter Developer – I use the CodeIgniter 3 framework to develop and maintain web applications. My responsibilities include writing MySQL queries proficiently and using Bootstrap and jQuery for front-end development.

## Education

### Azerbaijan Cybersecurity Center

Red Team Training Program – Courses included: Network Protocols, Web App Hacking. Python and PowerShell scripting, network protocols, and exploitation techniques.

### Code Academy

Full-Stack Web Development – Graduated with a score of 95/100. Completed an intensive training program covering modern web technologies including JavaScript, React, and Node.js.

## Technical Skills

- PHP, Laravel
- CodeIgniter 3
- MySQL, PostgreSQL, MongoDB
- Design Patterns, OOP, SOLID
- Node, Express, Prisma
- React, Typescript, Redux
- WebSocket
- Git, Linux, Docker

## Projects

[asancv.com](https://asancv.com) – Independently designed and developed a full-featured web platform that enables users to create and export professional CVs for free.
